

WE ASKED, STUDENTS VOTED

Student on site sentiment tracking week starting 23rd March 2020

DISCOVERING UNIVERSITY IN A VIRTUAL SPACE

Year 12s voted: which of the following is the most helpful in finding out about a university?

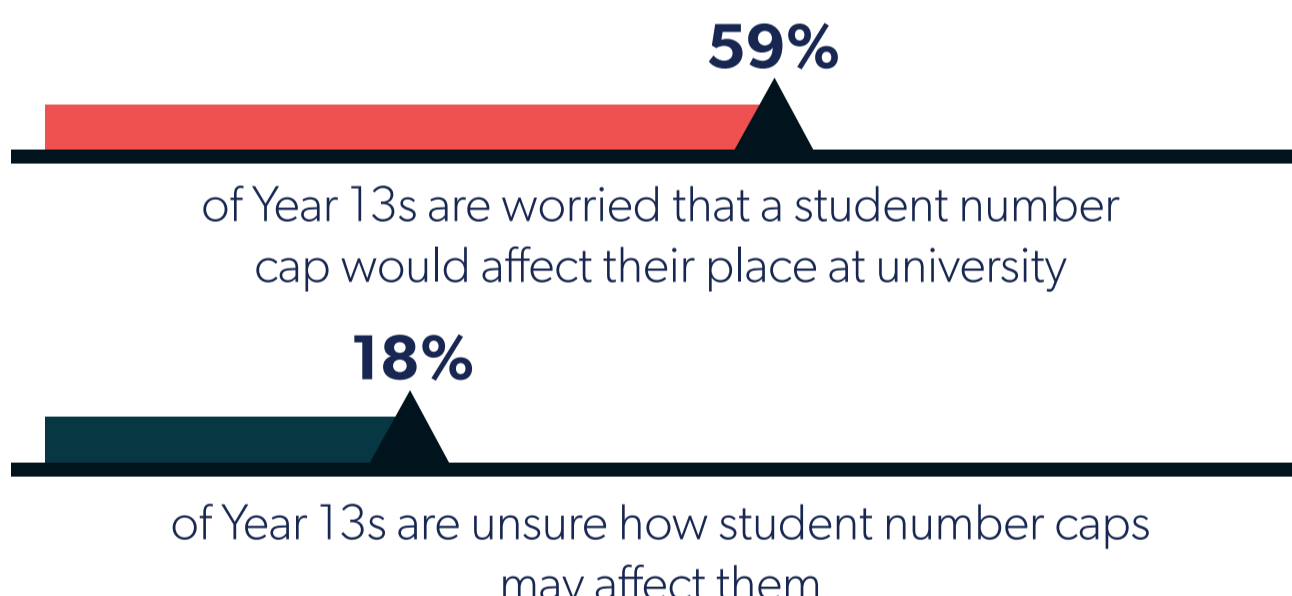

“ A visual tour would be good and if we were given an opportunity to speak with current students doing the course we applied for. ”

UNIVERSITY CHOICES

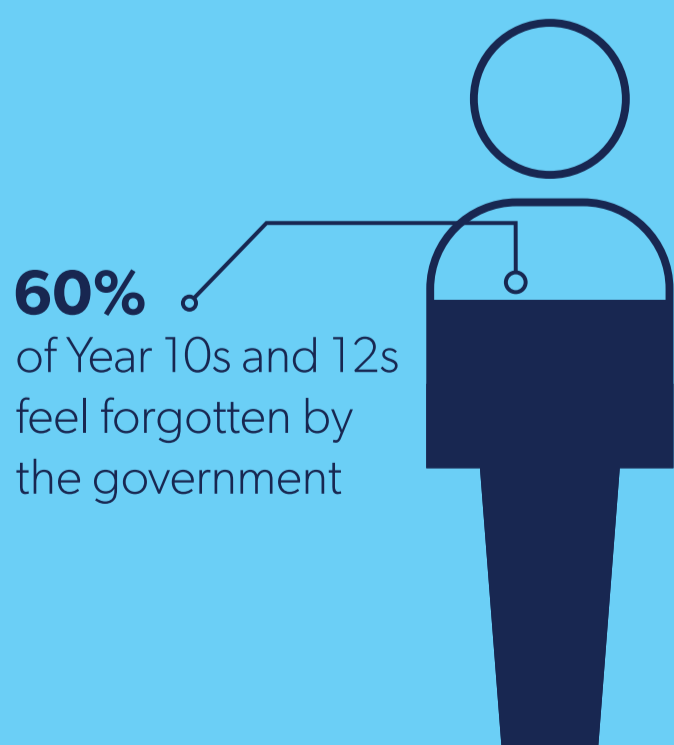

“ ... nobody knows what things are going to be like come September. I don't want to be stuck at home doing online classes and paying 9 grand for it. I don't want to be alone in a new place if things are still in lockdown, unable to meet new people or interact properly with a new place. It's got me feeling pretty lost, to be honest. ”

STUDENT CAPS

“ Maybe this will encourage people to stop and think whether they need to go to university right now, instead of just going because it has become the thing to do these days when you finish school. ”

FEELING FORGOTTEN

“ Try being a year 12 in Wales. AS still counts towards A Level and we haven't got a clue what's going on. ”

My main concern is securing work experience in an already competitive field such as Dentistry. A lot of my friends want to go into Medicine and have had all of their work experience and volunteering cancelled. Now it's much more difficult to make your application stand out.

Also, what about the UKCAT and BMAT exams this year? Are they cancelled too? Would the application for UCAS be delayed then? Government hasn't made things like that clear yet. ”
